EXPERIENCE

Co-Founder & Chief Operating Officer — Ardena Platforms Africa Ltd

Jan 2026 – Present

Nakuru, Kenya

- Co-founded and lead operations for a Kenyan technology startup building production-grade software and secure digital infrastructure.
- Set product, technology, and business strategy, translating company goals into scalable software solutions.
- Direct cross-functional execution across engineering, operations, and growth as the company scales.

Senior Software Engineer (Contract) — Africa Transformative Ecosystem Initiative

Jul 2026 – Aug 2026

Eastern Africa (Remote)

- Designed and built ATEI Africa's digital platform end-to-end, from architecture through production deployment.
- Delivered a responsive, accessible, performance-optimized website communicating the organization's mission and programs across devices.
- Implemented SEO foundations and structured content that improved search visibility and discoverability.
- Owned the full development and deployment workflow, aligning the final product with the organization's brand identity.

Senior Software Engineer (Contract) — Randa Construction Enterprise

Apr 2026 – Aug 2026

Nakuru, Kenya

- Built and maintained responsive web solutions that strengthened the company's digital presence.
- Improved site performance, SEO, and security while enhancing overall user experience.

Full-Stack Engineer — Dairy Processing & Packaging Machines Ltd (DPPM)

Sep 2025 – Dec 2025

Nairobi County, Kenya

- Developed and maintained the company website, improving performance, usability, and SEO visibility.
- Provided technical support and resolved system issues to improve reliability and support daily operations.
- Applied a Computer Information Systems background alongside emerging AI tools to keep digital systems efficient and future-ready.

IT Support Specialist — MCK Kiriene Boarding School

May 2023 – Sep 2023

Meru, Kenya

- Managed IT infrastructure and provided technical support to ensure smooth, secure daily operations.
- Collaborated with staff to troubleshoot systems, implement solutions, and optimize workflows.

EDUCATION

BSc, Applied Computer Science — Egerton University

2023 – 2027 (Expected)

Nakuru, Kenya
